

Who is **Dev Partners**

We are the leading staff augmentation provider of quality, reliable Philippine-based tech resources.

Our team of remote tech resources are highly skilled and experienced in a wide range of the latest and modern technologies.

What We Do

Hire the Top 1% **Tech Talent**

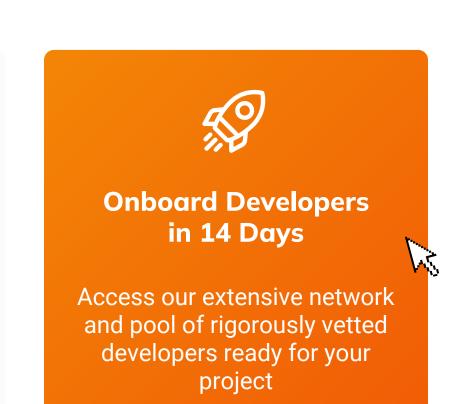

Exclusively interview fully vetted tech professionals with exceptional communication

and technical skills

Cut Your Cost by Half

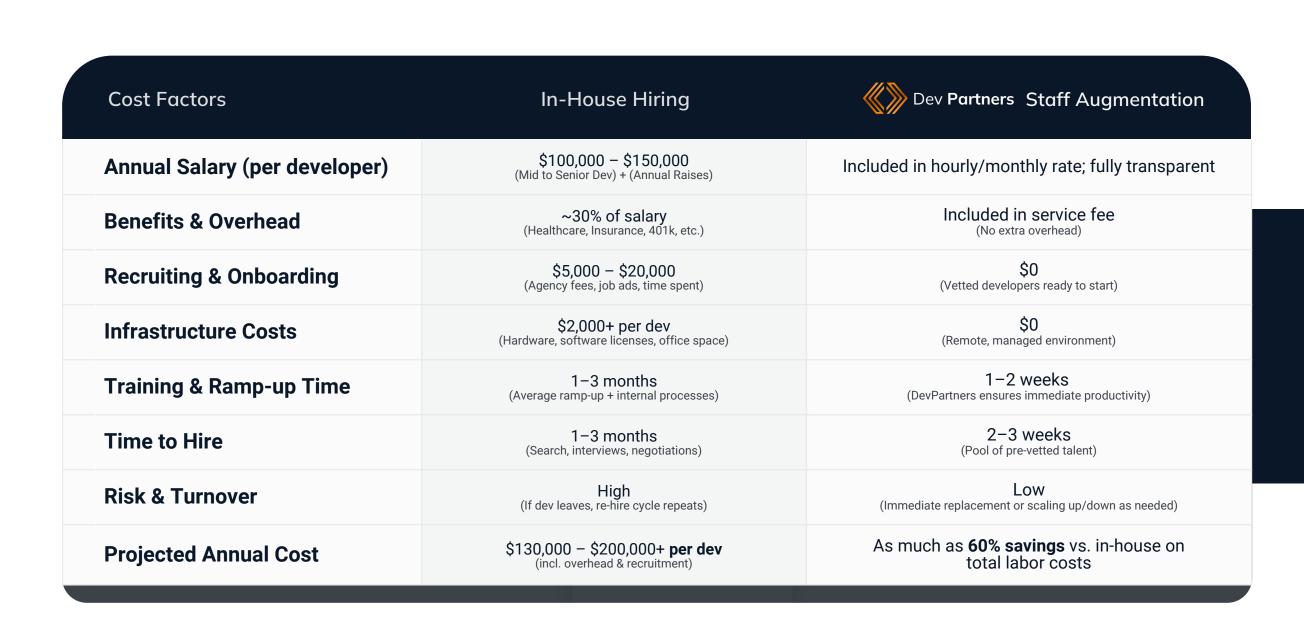

There are no recruitment fees nor hidden costs, just flexible, transparent hourly rates

Full Control Over Your Team

Your team, your rules. Work directly with developers for clear communication and smooth coordination

Cost Comparison: In-House vs. DevPartners

Our Approach

We are different from most offshore/outsourced providers.

At Dev Partners, we offer top-notch IT staff through our outstaffing services, giving you complete control and direct management of your team. Our approach has been shown to be a cost-effective, efficient, and reliable solution for businesses.

How we provide resources

Soft-skills Assessments Meant to ensure the candidate will fit

in well with client culture, work and communications styles.

Technical Interviews and Assessments General required technical knowledge

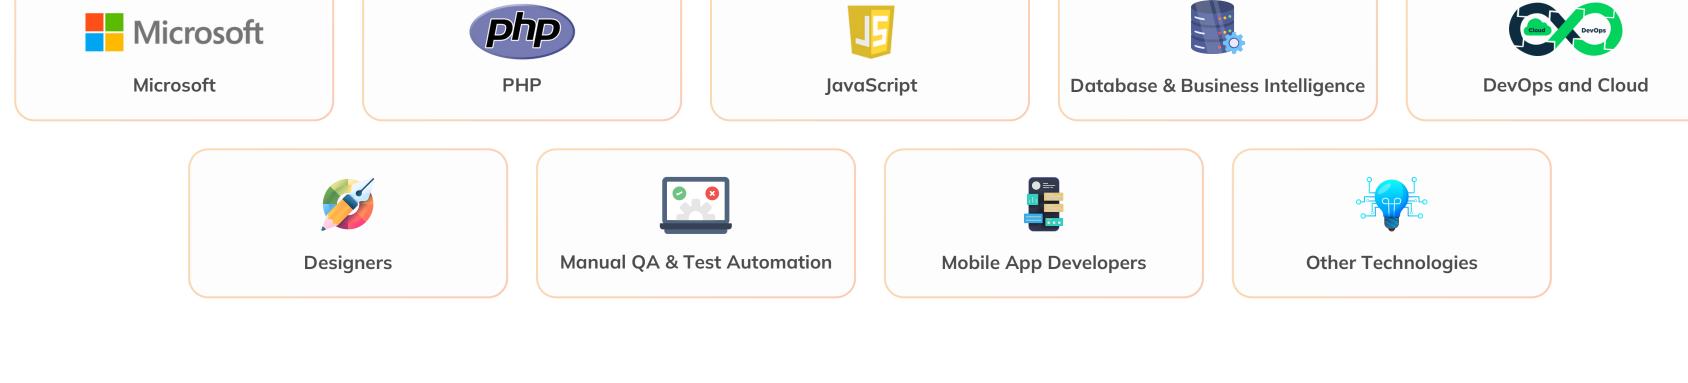

by the job description and post-assessment to further filter candidates.

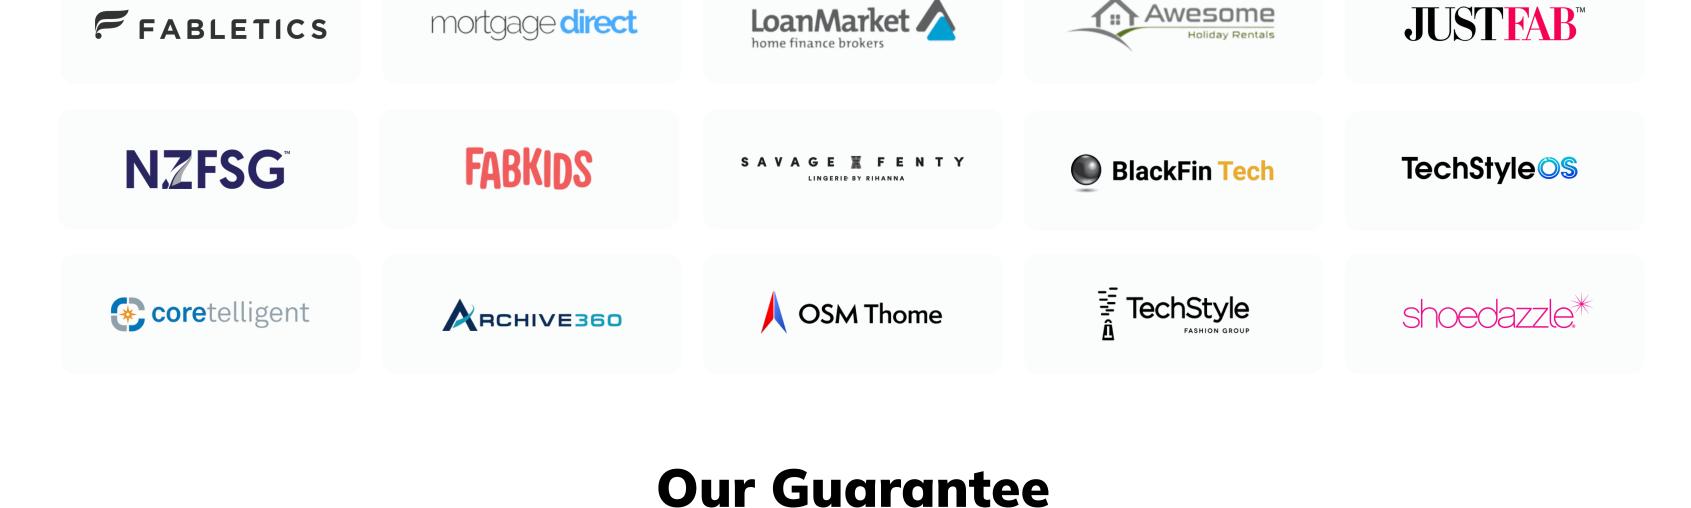

Specific Technical Interviews and Assessments A very detailed technical interview focused on

the specific requirements of skills and experience as noted in the job description.

Scale up with smart people We have a range of skills to choose from, for example we can find you experts in:

Brands We Work With

We stand by the performance of our team members. If you feel that an individual in your extended team is not

performing to your expectations, we will immediately arrange a replacement.
